Expert In The Field

A proven formula and strategy to get surveys, 5 star reviews, and more customers!

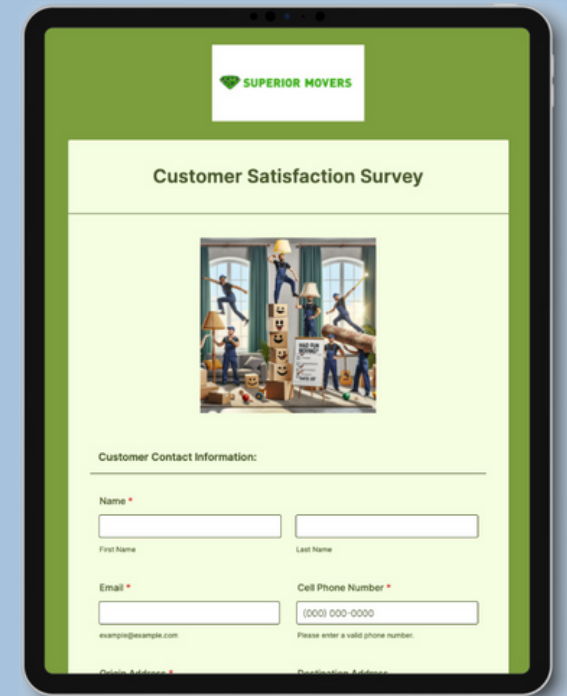

Effortlessly Manage Your Reputation with Our Integrated Approach

It is a requirement that your moving company uses our survey process.

How it works:

- 1 We design effective surveys for moving companies, which are presented to customers upon the completion of their move**

It's crucial to motivate or even incentivize your moving team to encourage customers to complete these surveys directly on a phone or tablet. These surveys are essential because they trigger automated review requests based on the responses and trigger realtor outreach emails.

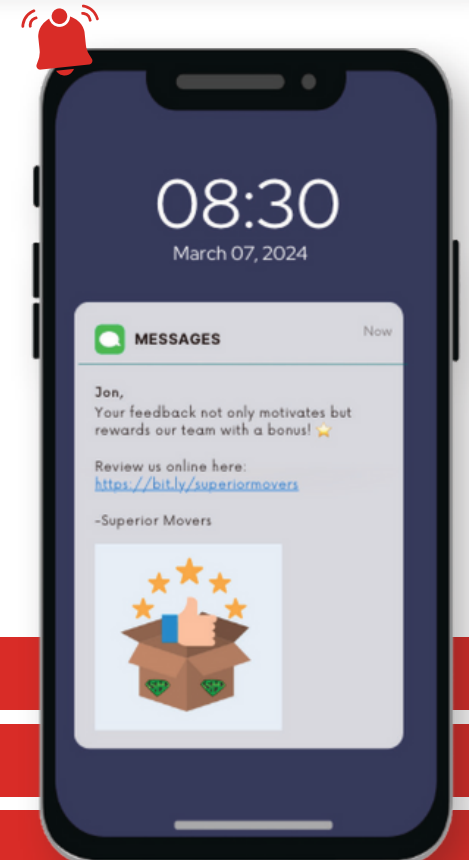

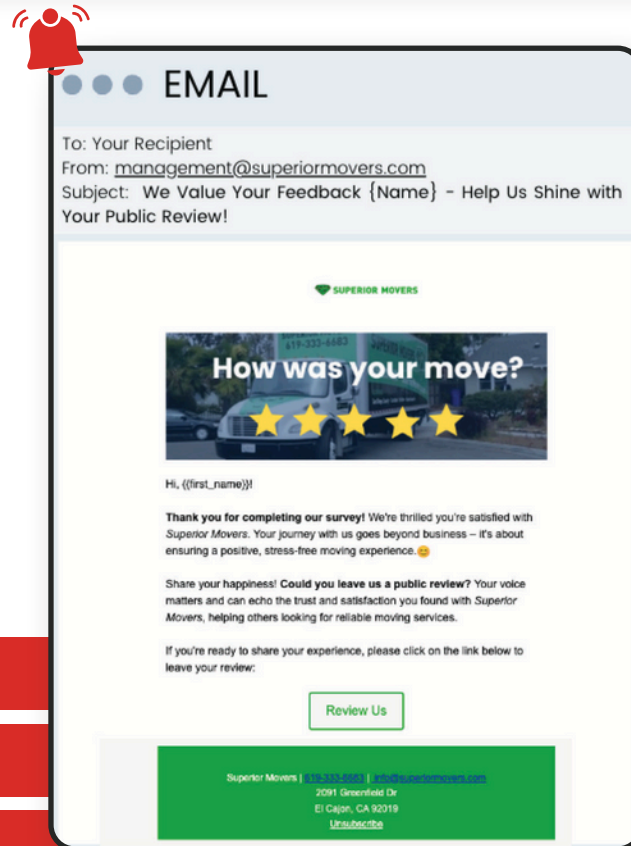

The image shows a tablet displaying a customer satisfaction survey for 'SUPERIOR MOVERS'. The survey is titled 'Customer Satisfaction Survey' and features a central image of movers in a room. Below the image, there is a section for 'Customer Contact Information' with the following fields: 'Name' (split into 'First Name' and 'Last Name'), 'Email', and 'Cell Phone Number'. The email field contains the placeholder 'example@example.com' and the cell phone number field contains the placeholder '(000) 000-0000'. A small note below the cell phone number field says 'Please enter a valid phone number.' The tablet has a green border and a black bezel.

2 After the client finishes the survey, and (if the feedback is positive), they will be prompted to scan a QR code that will direct them to leave a review on your Google Business Page.

If they don't write a review at that time, don't worry. They are also sent a text and email as soon as the survey form is filled. Still no review? We'll send them an email and text reminder 3 days after they have moved and settled in.

3 REALTOR OUTREACH:

Upon completion of the survey form, we have the capability to contact both the realtor representing the home your client is moving from and the realtor representing the destination property. This is achieved by including the origin and destination addresses provided in the survey.
